Producent	**NEOESP**

Opis produktu

Antibacterial Bag WHITE

Antibacterial bag in PP-woven of high resistance and matt finish. Available in a wide range of colours, with reinforced medium handles, 50 cm long. Sewn finish, with reinforced gussets and edges. Products with antibacterial treatments are able to drastically reduce the bacterial levels present on the surfaces of the materials, thanks to the addition of permanent static microbial agents, with high effectiveness in inhibiting and preventing bacterial contamination. Item according to the ISO 22196 standard, which determines the antibacterial activity in plastic materials and non-porous surfaces. This allows us to know the effectiveness of microbial inhibition that additives have on treated objects by means of a quantitave evaluation.

Typ: Antibacterial Bag | **Materiał:** Laminated Non-Woven

↻ Widok 360°

Produkt posiada dodatkowe opcje:
