The image shows a technical drawing of a light blue metal bracket, likely for a vehicle interior. It consists of two main parts: a top horizontal bar and a bottom horizontal bar. The top bar has two circular mounting holes with star-shaped inserts, two elongated slots, and a central rectangular area outlined with a red dashed line, indicating the marking area. The bottom bar also has two circular mounting holes with star-shaped inserts and three elongated slots. The two bars are connected by a vertical bracket on the right side, which has two circular mounting holes. The entire assembly is shown in a perspective view.
